

SPORTS PREMIUM FUNDING

End of Year Report 2015-16

One of our aims for this academic year has been to increase the participation rates of all children that take part sporting activities outside school hours. As you will see from the charts below we are delighted with the result!

Children attending extra-curricular clubs	<u>Autumn term 2013</u>	<u>July 2014</u>	<u>July 2015</u>	<u>July 2016</u>
YR-Y6	57%	80%	84%	88%
Boys	58%	74%	90%	91%
Girls	54%	73%	84%	86%
Disadvantaged	66%	87%	85%	89%
SEN	58%	75%	70%	81%

- There has been a 31% increase in pupil participation rates since the start of the sports funding in 2013-14.
- The proportion of children attending a club has increased by 4% during the academic year 2015-16.
- There has been an increase in participation rates in all groups: boys, girls, disadvantaged and SEN during this academic year.
- SEN participation increased by 11% following a drop in 2014-15.

The percentage of children attending a sports club has been consistent throughout the school. There has been an increase in each year group except Y1 which remained the same and Y6 where there was a drop by 6%. This was mainly due to the figure of children in Y6 attending a sports club in 2014-15 being 100%

	2015	2016
YR	85%	89%

Y1	79%	79%
Y2	68%	86%
Y3	86%	88%
Y4	85%	92%
Y5	89%	90%
Y6	94%	88%

Evidence of impact of the Sports premium funding:

- A continued increase in the number of children across all ages that have taken part in a sports club. As a result of this success the vast majority of our funding has been spent on the school contribution to all children who attend a club.
- The number of clubs we have provided has increased as well as the type of activities on offer. Throughout the year we have offered multi-sports, golf, football, gymnastics, netball, basketball, cheerleading, tag rugby, cricket, table tennis, fitness and athletics. We have tried to offer some new activities this year including golf, fitness and table tennis.
- We set up a fitness club run by the Y2 teacher for those children who either did not attend a sports club or for those who showed lower levels of fitness in curriculum lessons.
- We have funded specialist coaches to work with teachers during curriculum time to improve their skill knowledge and build confidence to teach a wider variety of activities. We had a dance teacher that provided some inspirational dance teaching for Y3 and Y4.
- The Y2 teacher attended athletics' training which resulted in her planning and confidently delivering athletics to Y2 during the summer term.
- We have funded 50% of the cost of all clubs and 100% of the cost for pupil premium children throughout the year. This has resulted in a continued increase in the number of children attending clubs. (see figures above).
- We held Inter-house competitions throughout the year for all KS2 classes for netball and hockey. Following the netball inter-house we had several boys asking about attending netball club and we currently have 2 boys on our club register. For the first time we ran a multi-skills inter-house competition for Y3&4 which proved to be very popular and will hopefully improve our performance when we enter district sports hall

athletics competitions in Y5&6. We also plan to purchase a trophy cabinet for house trophies and other sporting shields and cups that we are currently holding.. This will continue to raise the profile of PE and Sport in school.

- We have re-stocked some of our equipment to ensure that there is enough good quality equipment for all children.
- We held our second very successful Sports Festival in July. Children took part in both competitive and fun activities during the day. We hired two inflatables, an obstacle course and a big slide, soft play for the younger children, disc golf and kabbadi. We also employed specialist coaches to deliver some of these activities. As a result, all children, including Nursery took part in physical activity for the whole day with parents able to support and watch the various activities. We have had some very positive feedback from both parents and pupils.
- We continued to offer the children in Y4 that are not able to swim 25m confidently at the end of their swimming sessions in Y3 top-up swimming lessons. This involves an extra term of lessons paid for by Sports funding. We identified 9 children as being non-swimmers at the end of Y3. They are currently attending the lessons so no comment can be made about their progress at this stage.
- We entered a wide variety of sports competitions including:
 - Netball league and tournament
 - High 5 tournament
 - Sports hall athletics
 - District basketball tournament
 - Cross Country League and Championship
 - Speed stacking
 - District Sports heats and finals
 - District football league and cup and County cup
